SUMMARY

Computer Engineering student with hands-on experience in React Native, JavaScript, and frontend development. Passionate about building modern, responsive mobile applications with intuitive user interfaces. Experienced in developing real-world projects using Firebase and Git/GitHub. Seeking a Software Development or React Native Internship where I can contribute while expanding my technical skills.

EDUCATION

Bachelor of Engineering (Computer Engineering)

(Currently Pursuing)

PROJECTS

Invoice – Invoice Management Mobile App | Technologies: React Native, Firebase, JavaScript

- Designed and developed a professional invoice management application.
- Created a modern dark-themed UI with smooth navigation.
- Implemented invoice creation, editing, and tracking.
- Built reusable UI components for better maintainability.
- Integrated Firebase for data storage and management.
- Focused on responsive layouts and clean user experience.

Personal Portfolio Website | Technologies: HTML, CSS, JavaScript, GitHub Pages

- Designed and deployed a fully responsive personal portfolio.
- Showcases projects, technical skills, and contact information.
- Optimized for desktop and mobile devices.
- Hosted using GitHub Pages.

TECHNICAL SKILLS

Languages: JavaScript, C, C++, Java

Frontend: React Native, React, HTML5, CSS3

Backend & Database: Firebase, Firestore

Tools: Git, GitHub, VS Code, Android Studio, Figma

Concepts: Responsive UI Design, REST APIs, Component-Based Architecture, Mobile App Development

CERTIFICATIONS

React Native (If Available)

Java Programming (If Available)

Web Development (If Available)

STRENGTHS

Problem Solving Quick Learner Team Collaboration UI/UX Focused Development Clean Code Practices Time Management

LANGUAGES

English Hindi Marathi

CAREER OBJECTIVE

To obtain a Software Development Internship where I can apply my knowledge of React Native, frontend development, and problem-solving skills while contributing to impactful projects and continuously improving as a software engineer.
